This is a most effective appliance in the mechanical treatment and support in cases of Infantile Paralysis, Fractured Limbs, Ununited Fractures, Bow-legs, Knock Knee and other deformities of the lower extremities. The brace is easily adjusted to meet all requirements necessary to obtain proper results owing to the fact that by their peculiar construction the weight of the body is taken off the afflicted limb, permitting the possibility of an eventual cure or correction.

We will gladly forward all information necessary upon receipt of the description of any particular case.

NEW YORK

For the Treatment of Drug Addiction, Alcoholism and Nervous Diseases.

Telephone Riverside 6710

The Towns Hospital has been established for 14 years.

It has no connection directly or remotely with any other institution and is unique in being a hospital in the strictest sense of the term, where the treatment is administered under the direction of physicians and trained nurses experienced in this work.

Neither the medication nor the method is secret; on the contrary, physicians are invited to follow every detail of the treatment under conditions which render the alienation of a patient from his physician impossible.

The Towns Hospital has recently purchased the splendid building it now occupies, and will be there permanently located. Rooms may be had en suite for those desiring such accommodations, and special provision is made for patients of moderate means.

Physicians are invited to visit the new Hospital, where every courtesy will be extended.

The Towns treatment has been explained in detail in articles appearing in THE JOURNAL of American Medical Association. On request to the Towns Hospital these reprints will be sent; also a booklet with full information relative to the brevity of the treatment, terms, etc.

Consulting physicians constantly in communication. Staff of four resident physicians always in attendance.

My dear Doctor:

After a year of gratifying success in the operation of my emanatorium, I commend it to the attention of the medical profession as an adjunct to the work of doctors. The Muir Radium Institute has a perfect equipment.

The treatment is fully established in Europe, but until the creation of my institution, has not been at the disposition of the American practitioner.

In European clinics it has been recognized as peculiarly adaptable to the particular defective or

perverted metabolism, underlying the appearance of the characteristic symptoms of gout and rheumatism. In such conditions progress is usually emphasized by the re-solution of deposits and the disappearance of uric acid from the blood.

For several reasons it has seemed wise upon occasion to increase dosage from ten mache units to twenty and forty mache units per cubic litre of air. In this lies the advantage that physicians sending cases to be treated may now prescribe the dosage to be administered.

We extend a cordial invitation to you, as a physician, to visit the emanatorium and investigate the rationale of the treatment.

Very truly yours,

Joseph Weir

PREFACE

IN presenting the sixteenth volume of the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, the Medical Society of the State of New York has endeavored to present the best Medical Directory possible of these three States.

In compiling the list of physicians in New York State, the resolution of the House of Delegates passed on May 19, 1906, has been strictly complied with, viz.:

"*Resolved,* That in the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, published by the Medical Society of the State of New York, only the names of registered physicians be inserted."

The Medical Society of the State of New York will consider it a favor if any one finding errors in this book will report the same, so that they may be corrected in future editions.

The total number of physicians in lists contained in Volume XVI of the MEDICAL DIRECTORY is 18,210, of which 14,114 are in New York State, 2,683 in New Jersey, 1,413 in Connecticut. Of the 14,114 physicians in New York State, 5,437 are credited to Manhattan and Bronx, 1,984 to Brooklyn, 234 to Queens, 69 to Richmond, a total for Greater New York of 7,724, which makes the number of physicians residing in the rest of the State, 6,390.

17 West 43d Street, New York.

No member shall be eligible for any office, or entitled to vote for any officer or delegate who is in arrears for county dues and State per capita assessment.

Sec. 10. Method of Holding Elections.—All elections shall be by ballot, and a majority of the votes cast shall be necessary to elect. In case no nominee receives a majority of the votes on the first ballot, the nominee receiving the lowest number of the votes shall be dropped and a new ballot taken. This procedure shall be continued until one of the nominees receives a majority of all the votes cast, when he shall be declared elected, but in case no delegate or alternate for the American Medical Association receives on the first ballot a majority of the votes, the nominees shall be declared elected in the order of the highest number of votes received, until the allotted number shall have been chosen. In case of a tie vote for delegate or alternate a new ballot shall be taken.

With the aid and co-operation of the secretaries of the county societies, he shall keep a proper register of all the registered physicians of the State by counties. He shall aid the Councilors in the organization and improvement of the county societies and the extension of the power and influence of the Society. He shall conduct the official correspondence notifying members of meetings, officers of their election and committees of their appointment and duties. He shall make an annual report of his work and of the condition of the profession in each county in his district at the annual session of the House of Delegates. The necessary traveling expenses incurred by each councilor in the line of his duties as herein defined may be allowed by the Council on a proper itemized statement; but this shall not be construed to include his expenses in attending the annual session of the Society.

c. Each reference committee shall, as soon as possible after the adjournment of each meeting, or during the meeting, if necessary, take up and consider such business as may have been referred to it, and shall report on the same at the next meeting, or when called on to do so. Three members shall constitute a quorum.

The Committee shall make all necessary rules and regulations for the award of prizes subject to the terms of the deeds of gift, and shall report the result at the next annual meeting of the House of Delegates. They shall give notice through the Society's publications or by other methods within thirty days after their appointment, of the amount of the prize essays and when the essays shall be submitted to the Committee.

Members of the Committee on Prize Essays shall be elected by the House of Delegates for the term of two years.

MEMBERSHIP OF COMMITTEES.

Sec. 11. Any member of the Society shall be eligible to serve on Standing or Special Committees. All members of committees who are not members of the House of Delegates shall have the right to present their reports in person to the House of Delegates and to participate in the debate thereon, but shall not have the right to vote.

Section 1. The Sections designated by the House of Delegates shall each annually elect a Chairman and Secretary provided that each Section may elect its Secretary to serve a longer time at its discretion.

Sec. 2. The Chairman of the various sections shall be members of the Committee on Scientific Work.

Sec. 3. The election of officers of sections shall be the first order of business of the afternoon meeting of the second day of each annual session. To participate in the election of any section a member must be registered with such section and must have recorded his name and address in the Section registry.

Sec. 4. Each section shall hold its meetings at such times as designated by the Committee on Scientific Work.

CHAPTER X.—COUNTY SOCIETIES.

Section 1. County societies shall be organized as soon as practicable in every county of the State in which no county society exists, but there shall be but one county society in each county.

Sec. 2. Full and ample opportunity shall be given to every reputable physician to become a member of the society in the county in which he resides, and if there be no such society, then in the county society of an adjoining county.

Sec. 3. Whenever a member in good standing in any county medical society removes to another county in this State, his name, upon his request, shall be transferred to the roster of the county society of the county to which he removes, without cost to him.

Sec. 4. At its annual meeting each county society shall elect a delegate or delegates to represent it in the House of Delegates of this Society in accordance with the Constitution and By-Laws of this Society.

Sec. 5. The Secretary of each county society shall keep a roster of its members and of all other registered physicians of the county, in which shall be shown the full name of such physicians, with their addresses, the colleges from which they graduated, and the date of graduation, the date of their license to practice in this State, and such other information as may be deemed to be useful. In keeping such roster the Secretary shall note any changes in the personnel of the profession by death or by removal to or from the county, and in making his annual report he shall account for every physician who shall have practiced in the county during the year.

Sec. 6. The Secretary of each county society shall forward a copy of its roster of officers and members, list of delegates and list of other registered physicians of the county, to the Secretary of this Society thirty days before the date of its annual meeting.

Sec. 7. On or before the first day of June of each year the Treasurer of each county society shall forward to the Treasurer of this Society the amount of the State per capita assessment.

Sec. 8. Each county society may adopt a constitution and by-laws for the regulation of its affairs, provided that the same shall first be approved by the Council of this Society.

Sec. 9. The term county medical society as used in these By-Laws shall be deemed to include all societies now in affiliation with this Society or which may be organized and chartered by the House of Delegates.

CHAPTER XI.—MISCELLANEOUS.

Section 1. No address or paper before the Society, except those of the President and orators, shall occupy more than twenty minutes in its delivery, and no member shall speak upon any question before the house for longer than five minutes nor more than once on any subject, except by consent.

Sec. 2. All papers read before the Society by its members shall become the property of the Society. Permission may be given, however, by the House of Delegates or the Committee on Publication to publish such paper in advance of its appearance in The New York State Journal of Medicine.

Sec. 3. Any distinguished physician of a foreign country or a physician not a resident of this State, who is a member of his own State Association, may become a guest during any annual session upon the invitation of the President or officers of the Society, and may be accorded the privilege of participating in all the scientific work of the session.

Sec. 4. The deliberations of the Society shall be governed by parliamentary usage, as contained in Roberts' Rules of Order, when not in conflict with the Constitution and By-Laws of the Society.

CHAPTER XII.—AMENDMENTS.

These By-Laws shall not be amended except by a majority vote of all the delegates present and voting at a meeting of the House of Delegates, nor unless ten days' notice of the meeting and of the proposed amendments shall have been given to each member of the House of Delegates.

Sec. 2. The Council of the Society may, between meetings of the House of Delegates, make such changes in these By-Laws as may be required to adapt them to the Laws of the State of New York or the United States or to resolutions of the Post Office or any Federal department. Such amendments must be approved at the next meeting of the House of Delegates.

PRINCIPLES OF MEDICAL ETHICS.*

CHAPTER I.—THE DUTIES OF PHYSICIANS TO THEIR PATIENTS.

Section 1. Physicians should not only be ever ready to obey the calls of the sick and the injured, but should be mindful of the high character of their mission and of the responsibilities they must incur in the discharge of momentous duties. In their ministrations they should never forget that the comfort, the health, and the lives of those entrusted to their care depend on skill, attention and fidelity. In deportment they should unite tenderness, cheerfulness and firmness, and thus inspire all sufferers with gratitude, respect and confidence. These observances are the more sacred because, generally, the only tribunal to adjudge penalties for unkindness, carelessness or neglect is their own conscience.

Sec. 2. Every patient committed to the charge of a physician should be treated with attention and humanity, and reasonable indulgence should be granted to the caprices of the sick. Secrecy and delicacy should be strictly observed; and the familiar and confidential intercourse to which physicians are admitted, in their professional visits, should be guarded with the most scrupulous fidelity and honor.

Sec. 3. The obligation of secrecy extends beyond the period of professional services; none of the privacies of individual or domestic life, no infirmity of disposition or flaw of character observed during medical attendance, should ever be divulged by physicians, except when imperatively required by the laws of the State. The force of the obligation of secrecy is so great that physicians have been protected in its observance by courts of justice.

---

*Adopted by American Medical Association, May 7, 1903.
Adopted by the Medical Society of the State of New York. May 10, 1906.

Sec. 4. Frequent visits to the sick are often requisite, since they enable the physician to arrive at a more perfect knowledge of the disease, and to meet promptly every change which may occur. Unnecessary visits are to be avoided, as they give undue anxiety to the patient; but to secure the patient against irritating suspense and disappointment the regular and periodical visits of the physician should be made as nearly as possible at the hour when they may be reasonably expected by the patient.

Sec. 5. Ordinarily, the physician should not be forward to make gloomy prognostications, but should not fail, on proper occasions, to give timely notice of dangerous manifestations to the friends of the patient; and even to the patient, if absolutely necessary. This notice, however, is at times so peculiarly alarming when given by the physician that its deliverance may often be preferably assigned to another person of good judgment.

Sec. 6. The physician should be a minister of hope and comfort to the sick, since life may be lengthened or shortened not only by the acts but by the words or manner of the physician, whose solemn duty is to avoid all utterances and actions having a tendency to discourage and depress the patient.

Sec. 7. The medical attendant ought not to abandon a patient because deemed incurable; for continued attention may be highly useful to the sufferer and comforting to the relatives, even in the last period of the fatal malady, by alleviating pain and by soothing mental anguish.

Sec. 8. The opportunity which a physician has of promoting and strengthening the good resolutions of patients suffering under the consequences of evil conduct ought never to be neglected. Good counsels, or even remonstrances, will give satisfaction, not offense, if they be tactfully proffered and evince a genuine love of virtue, accompanied by a sincere interest in the welfare of the person to whom they are addressed.

CHAPTER II.—THE DUTIES OF PHYSICIANS TO EACH OTHER AND TO THE PROFESSION AT LARGE.

ARTICLE I.—DUTIES FOR THE SUPPORT OF PROFESSIONAL CHARACTER.

Section 1. Every one on entering the profession, and thereby becoming entitled to full professional fellowship, incurs an obligation to uphold its dignity and honor, to exalt its standing and to extend the bounds of its usefulness. It is inconsistent with the principles of medical science and it is incompatible with honorable standing in the profession for physicians to designate their practice as based on an exclusive dogma or a sectarian system of medicine.

Sec. 2. The physician should observe strictly such laws as are instituted for the government of the members of the profession; should honor the fraternity as a body; should endeavor to promote the science and art of medicine and should entertain a due respect for those seniors who, by their labors, have contributed to its advancement.

Sec. 3. Every physician should identify himself with the organized body of his profession as represented in the community in which he resides. The organization of local or county medical societies, where they do not exist, should be effected, so far as practicable. Such county societies, constituting as they do the chief element of strength in the organization of the profession, should have the active support of their members and should be made instruments for the cultivation of fellowship, for the exchange of professional experience, for the advancement of medical knowledge, for the maintenance of ethical standards, and for the promotion in general of the interests of the profession and the welfare of the public.

Sec. 4. All county medical societies thus organized ought to place themselves in affiliation with their respective state associations, and these, in turn, with the American Medical Association.

Sec. 5. There is no profession from the members of which greater purity of character and a higher standard of moral excellence are required than the medical; and to attain such eminence is a duty every physician owes alike to the profession and to patients. It is due to the patients, as without it their respect and confidence can not be commanded; and to the profession, because no scientific attainments can compensate for the want of correct moral principles.

Sec. 6. It is incumbent on physicians to be temperate in all things, for the practice of medicine requires the unremitting exercise of a clear and vigorous understanding; and in emergencies—for which no physician should be unprepared—a steady hand, an acute eye and an unclouded mind are essential to the welfare and even to the life of a human being.

Sec. 7. It is incompatible with honorable standing in the profession to resort to public advertisement or private cards inviting the attention of persons affected with particular diseases; to promise radical cures; to publish cases or operations in the daily prints, or to suffer such publications to be made; to invite laymen (other than relatives who may desire to be at hand) to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success, or to employ any of the other methods of charlatans.

Sec. 8. It is equally derogatory to professional character for physicians to hold patents for any surgical instruments or medicines; to accept rebates on prescriptions or surgical appliances; to assist unqualified persons to evade the legal restrictions governing the practice of medicine; or to dispense, or promote the use of, secret medicines, for if such nostrums are of real efficacy, any concealment regarding them is inconsistent with beneficence and professional liberality, and if mystery alone gives them public notoriety, such craft implies either disgraceful ignorance or fraudulent avarice. It is highly reprehensible for physicians to give certificates attesting the efficacy of secret medicines, or other substances used therapeutically.

ARTICLE II.—PROFESSIONAL SERVICES OF PHYSICIANS TO EACH OTHER.

Section 1. Physicians should not, as a general rule, undertake the treatment of themselves, nor of members of their family. In such circumstances they are peculiarly dependent on each other; therefore, kind offices and professional aid should always be cheerfully and gratuitously afforded. These visits ought not, however, to be obtrusively made, as they may give rise to embarrassment or interfere with that free choice on which such confidence depends.

Sec. 2. All practising physicians and their immediate family dependents are entitled to the gratuitous services of any one or more of the physicians residing near them.

Sec. 3. When a physician is summoned from a distance to the bedside of a colleague in easy financial circumstances, a compensation, proportionate to traveling expenses and to the pecuniary loss entailed by absence from the accustomed field of professional labor, should be made by the patient or relatives.

Sec. 4. When more than one physician is attending another, one of the number should take charge of the case, otherwise the concert of thought and action so essential to wise treatment can not be assured.

Sec. 5. The affairs of life, the pursuit of health, and the various accidents and contingencies to which a physician is peculiarly exposed sometimes require the temporary withdrawal of this physician from daily professional labor and the appointment of a colleague to act for a specified time. The colleague's compliance is an act of courtesy which should always be performed with the utmost consideration for the interest and character of the family physician.

ARTICLE III.—THE DUTIES OF PHYSICIANS IN REGARD TO CONSULTATIONS.

Section 1. The broadest dictates of humanity should be obeyed by physicians whenever and wherever their services are needed to meet the emergencies of disease or accident.

Sec. 2. Consultations should be promoted in difficult cases, as they contribute to confidence and more enlarged views of practice.

Sec. 3. The utmost punctuality should be observed in the visits of physicians when they are to hold consultations, and this is generally practicable, for society has been so considerate as to allow the plea for a professional engagement to take precedence over all others.

Sec. 4. As professional engagements may sometimes cause delay in attendance, the physician who first arrives should wait for a reasonable time, after which the consultation should be considered as postponed to a new appointment.

Sec. 5. In consultations no insincerity, rivalry or envy should be indulged, candor, probity and all due respect should be observed toward the physician in charge of the case.

Sec. 6. No statement or discussion of the case should take place before the patient or friends, except in the presence of all the physicians attending, or by their common consent; and no opinions or prognostications should be delivered which are not the result of previous deliberations and concurrence.

Sec. 7. No decision should restrain the attending physician from making such subsequent variations in the mode of treatment as any unexpected change in the character of the case may demand. But at the next consultation reasons for variations should be

stated. The same privilege, with its obligation, belongs to the consultant when sent for in an emergency during the absence of the family physician.

Sec. 8. The attending physician, at any time, may prescribe for the patient; not so the consultant, when alone, except in a case of emergency or when called from a considerable distance. In the first instance the consultant should do what is needed, and in the second should do no more than make an examination of the patient and leave a written opinion, under seal, to be delivered to the attending physician.

Sec. 9. All discussions in consultation should be held as confidential. Neither by words nor by manner should any of the participants in a consultation assert or intimate that any part of the treatment pursued did not receive his assent.

Sec. 10. It may happen that two physicians can not agree in their views of the nature of a case and of the treatment to be pursued. In the event of such disagreement a third physician should, if practicable, be called in. None but the rarest and most exceptional circumstances would justify the consultant in taking charge of the case. He should not do so merely on the solicitation of the patient or friends.

Sec. 11. A physician who is called in consultation should observe the most honorable and scrupulous regard for the character and standing of the attending physician, whose conduct of the case should be justified, as far as can be, consistently with a conscientious regard for truth, and no hint or insinuation should be thrown out which would impair the confidence resposed in the attending physician.

ARTICLE IV.—DUTIES OF PHYSICIANS IN CASES OF INTERFERENCE.

Section 1. Medicine being a liberal profession, those admitted to its ranks should found their expectations of practice especially on the character and the extent of their medical education.

Sec. 2. The physician, in the intercourse with a patient under the care of another physician, should observe the strictest caution and reserve; should give no disingenuous hints relative to the nature and treatment of the patient's disorder; nor should the course of conduct of the physician, directly or indirectly, tend to diminish the trust reposed in the attending physician.

Sec. 3. The same circumspection should be observed when, from motives of business or friendship, a physician is prompted to visit a person who is under the direction of another physician. Indeed, such visits should be avoided, except under peculiar circumstances, and, when they are made no inquiries should be instituted relative to the nature of the disease, or the remedies employed, but the topics of conversation should be as foreign to the case as circumstances will admit.

Sec. 4. A physician ought not to take charge of, nor prescribe for, a patient who has recently been under the care of another physician, in the same illness, except in case of a sudden emergency, or in consultation with the physician previously in attendance, or when that physician has relinquished the case or has been dismissed in due form.

Sec. 5. The physician acting in conformity with the preceding section should not make damaging insinuations regarding the practice previously adopted, and, indeed, should justify it if consistent with truth and probity; for it often happens that patients become dissatisfied when they are not immediately relieved, and, as many diseases are naturally protracted, the seeming want of success, in the first stage of treatment, affords no evidence of a lack of professional knowledge or skill.

Sec. 6. When a physician is called to an urgent case, because the family attendant is not at hand, unless assistance in consultation is desired, the former should resign the care of the patient immediately on the arrival of the family physician.

Sec. 7. It often happens, in cases of sudden illness, and of accidents and injuries, owing to the alarm and anxiety of friends, that several physicians are simultaneously summoned. Under these circumstances, courtesy should assign the patient to the first who arrives, and who, if necessary, may invoke the aid of some of those present. In such cases, however, the acting physician should request that the family physician be called, and should withdraw unless requested to continue in attendance.

Sec. 8. Whenever a physician is called to the patient of another physician during the enforced absence of that physician, the case should be relinquished on the return of the latter.

Sec. 9. A physician, while visiting a sick person in the country, may be asked to see another physician's patient because of a sudden aggravation of the disease. On such an occasion the immediate needs of the patient should be attended to and the case relinquished on the arrival of the attending physician.

Sec. 10. When a physician who has been engaged to attend an obstetric case is absent and another is sent for, delivery being accomplished during the vicarious attendance,

the acting physician is entitled to the professional fee, but must resign the patient on the arrival of the physician first engaged.

ARTICLE V.—DIFFERENCES BETWEEN PHYSICIANS.

Section 1. Diversity of opinion and opposition of interest may, in the medical as in other professions, sometimes occasion controversy and even contention. Whenever such unfortunate cases occur and can not be immediately adjusted, they should be referred to the arbitration of a sufficient number of impartial physicians.

Sec. 2. A peculiar reserve must be maintained by physicians toward the public in regard to some professional questions, and as there exist many points in medical ethics and etiquette through which the feelings of physicians may be painfully assailed in their intercourse, and which can not be understood or appreciated by general society, neither the subject-matter of their differences nor the adjudication of the arbitrators should be made public.

ARTICLE VI.—COMPENSATION.

Section 1. By the members of no profession are eleemosynary services more liberally dispensed than by the medical, but justice requires that some limits should be placed to their performance. Poverty, mutual professional obligations, and certain of the public duties named in Sections 1 and 2 of Chapter III should always be recognized as presenting valid claims for gratuitous services; but neither institutions endowed by the public or by the rich, or by societies for mutual benefit, for life insurance, or for analogous purposes, nor any profession or occupation can be admitted to possess such privilege.

Sec. 2. It cannot be justly expected of physicians to furnish certificates of inability to serve on juries, or to perform militia duty; to testify to the state of health of persons wishing to insure their lives, obtain pensions, or the like, without due compensation, but to persons in indigent circumstances such services should always be cheerfully and freely accorded.

Sec. 3. Some general rules should be adopted by the physicians in every town or district relative to the minimum pecuniary acknowledgment from their patients; and it should be deemed a point of honor to adhere to these rules with as much uniformity as varying circumstances will admit.

Sec. 4. It is derogatory to professional character for physicians to pay or offer to pay commissions to any person whatsoever who may recommend to them patients requiring general or special treatment or surgical operations. It is equally derogatory to professional character for physicians to solicit or to receive such commissions.

CHAPTER III.—THE DUTIES OF THE PROFESSION TO THE PUBLIC.

Section 1. As good citizens it is the duty of physicians to be very vigilant for the welfare of the community, and to bear their part in sustaining its laws, institutions and burdens; especially should they be ready to co-operate with the proper authorities in the administration and the observance of sanitary laws and regulations, and they should also be ever ready to give counsel to the public in relation to subjects especially appertaining to their profession, as on questions of sanitary police, public hygiene and legal medicine.

Sec. 2. It is the province of physicians to enlighten the public in regard to quarantine regulations; to the location, arrangement and dietaries of hospitals, asylums, schools, prisons and similar institutions; in regard to measures for the prevention of epidemic and contagious diseases; and, when pestilence prevails, it is their duty to face the danger, and to continue their labors for the alleviation of the suffering people, even at the risk of their own lives.

Sec. 3. Physicians, when called on by legally constituted authorities, should always be ready to enlighten inquests and courts of justice on subjects strictly medical, such as involve questions relating to sanity, legitimacy, murder by poison or other violent means, and various other subjects embraced in the science of medical jurisprudence. It is but just, however, for them to expect due compensation for their services.

Sec. 4. It is the duty of physicians, who are frequent witnesses of the great wrongs committed by charlatans, and of the injury to health and even destruction of life caused by the use of their treatment, to enlighten the public on these subjects, and to make known the injuries sustained by the unwary from the devices and pretensions of artful impostors.

Sec. 5. It is the duty of physicians to recognize and by legitimate patronage to promote the profession of pharmacy, on the skill and proficiency of which depends the reliability of remedies, but any pharmacist who, although educated in his own profession, is not a qualified physician, and who assumes to prescribe for the sick, ought not to receive such countenance and support. Any druggist or pharmacist who dispenses deteriorated or sophisticated drugs or who substitutes one remedy for another designated in a prescription ought thereby to forfeit the recognition and influence of physicians.

WHAT THE DEPARTMENT OF HEALTH EXPECTS OF PHYSICIANS—WHAT IT DOES IN RETURN.

I.

The Department expects correct and prompt reporting of births.
Correct and complete reports of deaths.
Prompt reports of cases of infectious diseases.
Systematic co-operation in seconding the efforts of the Department of Health in public health work.

II.

The Department places at the disposal of physicians diagnostic laboratory facilities in tuberculosis, typhoid fever, diphtheria, meningitis, malaria, syphilis, gonococcus infections and rabies.

It furnishes assistance in the clinical diagnosis of contagious diseases, meningitis, poliomyelitis, rabies and diseases of doubtful origin considered possibly communicable.

It supplies physicians with antitoxins and vaccines for the prevention and specific treatment of diphtheria, tetanus, typhoid fever, rabies, gonococcus and other infections in which such treatment is of value.

It stands ready, day and night, to perform intubations for cases of laryngeal diphtheria.

It performs free disinfection of infected premises for the physicians' patients.

It offers hospital care for the patients ill with contagious diseases, including tuberculosis.

It provides a sanatorium where physicians may send tuberculous patients.

Through its system of school medical inspection it refers to physicians a large number of patients needing medical and surgical care.

It guards against the practice of unqualified midwives through a system of permits, and against unqualified physicians and so-called healers by close supervision of all births and death certificates.

It campaigns against quackery and patent medicines.

It publishes numerous scientific bulletins for free distribution to physicians.

LEGAL DUTIES OF PHYSICIANS TO THE DEPARTMENT OF HEALTH.

1. All physicians practising in the City of New York (including those in public institutions) must be registered with the Department of Health.

2. An attending physician must furnish a certificate of death within thirty-six hours after the death of the patient, or, if death be due to a contagious or infectious disease, forthwith.

3. If a person dies from criminal violence, or by a casualty, or suddenly when in apparent health, or when unattended by a physician, or in prison, or in any suspicious or unusual manner, the case must be referred to a Coroner.

4. It shall be the duty of every physician to report to the Department of Health, in writing, the full name, age, and address of every person suffering from any one of the infectious diseases included in the list appended, with the name of the disease, within twenty-four hours of the time when the case is first seen.

A.—Contagious (very readily communicable): Measles, rubella (rotheln), scarlet fever, small-pox, varicella (chicken-pox), typhus fever, relapsing fever.

B.—Communicable: Diphtheria (croup), typhoid fever, Asiatic cholera, tuberculosis (of any organ), plague, tetanus, anthrax, glanders, epidemic cerebro-spinal meningitis, leprosy, infectious diseases of the eye (trachoma, suppurative conjunctivitis), puerperal septicaemia, erysipelas, whooping cough, acute poliomyelitis (infantile paralysis).

C.—Indirectly communicable (through intermediary host): Yellow fever, malarial fever.

5. Physicians must report births occurring in their practice within ten days after the event.

6. Every physician must preserve a duplicate record of every death and birth so reported.

N.B.—Any violation of the Sanitary Code is a misdemeanor. (See 1172, Chap. 466, Laws of 1901.)

RULES AND REGULATIONS OF THE DEPARTMENT OF HEALTH RELATING TO PHYSICIANS.

1. Reports of cases of contagious diseases, of births, of still-births, and of deaths must be written with black ink, upon blank forms provided by the Department, which will be furnished upon application, personally or by mail.

2. Certificates of death will be returned for additional information which give any of the following diseases, without explanation, as the sole cause of death:

Abortion,	Erysipelas,	Meningitis,	Phlebitis,
Cellulitis,	Gangrene,	Metritis,	Pyaemia,
Childbirth,	Gastritis,	Miscarriage,	Septicaemia,
Convulsions,	Haemorrhage,	Peritonitis,	Tetanus.

(Any one of these may be the result of an injury, and thus be a subject for investigation by a Coroner. If it is not, the certificate should make that fact plain.)

Physicians are also required, in accordance with Section 133 of the Sanitary Code, to report to the Department of Health, among other diseases, all cases of tuberculosis, typhoid fever, cerebro-spinal meningitis, malaria, and acute poliomyelitis. They are also requested to report all cases of venereal diseases.

2. All changes of address and discontinuance of treatment on the part of their consumptive patients are to be reported to the Department of Health once a month.

3. All necessary precautions must be taken to prevent the spread of the disease, e.g., isolation and quarantine in cases of cerebro-spinal meningitis, acute poliomyelitis, disinfection of typhoid excreta and of tuberculosis sputum.

4. No certificate will be accepted which gives a mere symptom as the sole cause of death, such as "asphyxia," "debility," "dropsy," "heart failure," etc., unless accompanied by a satisfactory written explanation.

5. Certificates containing palpable errors of names, dates, etc., which are illegible will be returned, and a new certificate required, as no corrections, erasures, or interlineations will be permitted.

(These certificates are permanent records of great legal importance, and it is necessary that they should show upon the face that they are original records and have not been tampered with.)

N.B.—Physicians are particularly requested to make their reports of the cause of death as full and accurate as possible, in order that the records of this office may be of statistical value to the medical profession and the public.

It shall be the duty of every undertaker having notice of the death of any person within the City of New York of small-pox, diphtheria (croup), scarlet fever, yellow fever, typhus fever, plague, Asiatic cholera, measles, or any other infectious disease dangerous to the general health of the community, or of the bringing of the dead body of any person who has died of any such disease into such city, to give immediate notice thereof to this Department. No person shall retain or expose, or assist in the retention or exposure of the dead body of any such person except in a coffin or casket properly sealed; nor shall he allow any such body to be placed in any coffin or casket unless the body has been wrapped in a sheet saturated with a proper disinfecting solution, and the coffin or casket shall then be immediately and permanently sealed. No undertaker shall assist in the public or church funeral of any such person. No undertaker shall use, or cause or allow to be used, at any funeral, or in any room where the dead body of any person shall be, any draperies, decorations, rugs or carpets, belonging to or furnished by him or under his direction.

A public or church funeral shall not be held of any person who has died of small-pox, diphtheria (croup), scarlet fever, yellow fever, typhus fever, Asiatic cholera, measles, or plague; but the funeral of such person shall be private, and it shall not be lawful to invite, or permit at the funeral of any person who has died of any one of the above diseases, or of any infectious disease, or at any services connected therewith, any person whose attendance is not necessary, or to whom there is danger of contagion.

S. S. GOLDWATER, M.D.,
President.
